

Let the Airport City take your Business places

Vision

GMR Group will be an institution in perpetuity that will build entrepreneurial organisations making a difference to society through creation of value

GMR Group is a Bangalore headquartered global infrastructure major with interests in Airports, Energy, Transportation and Urban Infrastructure sectors. Founded in 1978, the Group is well diversified and professionally managed.

In the Airports sector, the Group operates India's busiest airport, the Indira Gandhi International Airport in New Delhi, and the Rajiv Gandhi International Airport, a greenfield airport at Hyderabad which is a gateway to south and central India. The Group is also developing Aerotropolis/Airport Cities at both Delhi & Hyderabad airports.

The Consortium comprising of GMR and Megawide Constructions has signed a concession agreement for the operations and development of Mactan-Cebu International Airport for a period of 25 years.

The Group has 15 power generation assets of which 8 are operational and 7 are under various stages of development. GMR Group's Transportation business has 6 operational Highways.

Under Urban Infrastructure, GMR is developing a multi-product Special Investment Region in Tamil Nadu's Krishnagiri District. The Group is planning to develop a captive port based multi-product Special Investment Region in Kakinada, Andhra Pradesh.

GMR Varalakshmi Foundation (GMRVF) is the Corporate Social Responsibility arm of the GMR Group, focusing broadly on education, health, hygiene, sanitation, empowerment, livelihood, and community development.

RAJIV GANDHI INTERNATIONAL AIRPORT, HYDERABAD

The Rajiv Gandhi International Airport (RGIA) was inaugurated on March 14, 2008 and has capacity to handle 12 million passengers per annum (mppa) and 100,000 tons of cargo per annum in Phase I. Spread over 5,495 acres, the Airport has the flexibility to increase the capacity to accommodate over 40 mppa and shall be developed in a phased manner. The airport has world-class facilities and consistently ranked among the top 3 airports in the world in Airport Service Quality ratings.

Currently, there are 18 passenger airlines including 3 domestic carriers, flying to 21 international destinations and 7 domestic airlines operating to around 32 destinations. Lufthansa Cargo, Cathay Pacific, Qatar Cargo, Turkish Airlines and Blue Dart operate freighters from RGIA.

HYDERABAD, INDIA

Founded in 1591, Hyderabad is the sixth largest metropolis in India, known for its rich history, culture and varied heritage in arts, crafts and dance. It is also known as “City of Pearls” and is famous for its delectable cuisine.

Today, it is home to many multinational companies and global majors including Microsoft, Google, Facebook, CA, Oracle, IBM, Dell, TCS, Infosys, Wipro and others. Apart from IT, Hyderabad is also emerging as a leader in the pharmaceuticals, biotechnology, insurance and tourism sectors. Hyderabad offers good weather all the year around.

Apart from world class institutes like ISB (Indian School of Business), IIT (Indian Institute of Technology), IIIT (International Institute of Information Technology), BITS (Birla Institute of Technology and Science) the city has thirteen universities. (three central, six state, two deemed and two private universities).

Lying within two-hour flight distance from all major Indian cities and five hour flight distance from Middle East, South East and Central Asia, Hyderabad is strategically located at the centre of India.

GMR HYDERABAD AIRPORT CITY

Airport City/Aerotropolis: A new urban concept placing airports in the center with cities growing around them, connecting workers, suppliers, executives, and goods to the global marketplace

Airport areas today have become as much places of destination as places of departure. Distant travelers and locals alike converge on airport cities and aerotropolises to work, shop, transact business, exchange knowledge, meet, sleep, eat and be entertained

GMR Hyderabad Aerotropolis Limited, a 100% subsidiary of GMR Hyderabad International Airport Limited (GHIAL) is developing India's largest Airport City (Aerotropolis) spread over 1,500 acres of integrated ecosystem covering Commercial Office space, Retail, Leisure & entertainment, Hospitality, Education, Healthcare, Aerospace and Logistics.

The land use concept has been carefully crafted to create distinct "ports" or development districts catering to specific functions, while maintaining a flexible, scalable and yet organized development scheme. This high-end Airport City will focus on sustainable development using Green Technologies and new generation digital infrastructure along with quality physical infrastructure.

Total land available to RGIA is 5,495 acres, out of which the "Airport City" is spread over 1,500 acres of which 1,000 acres is earmarked for "Theme"/"Port" based development zone which would include – Office Port, Mixed use Commercial Zone, Funport, Eduport, Healthport. 500 acres is carved out for two SEZs of 250 acres each – a Multiproduct SEZ with focus on aerospace & aero related developments and a Multi Services SEZ.

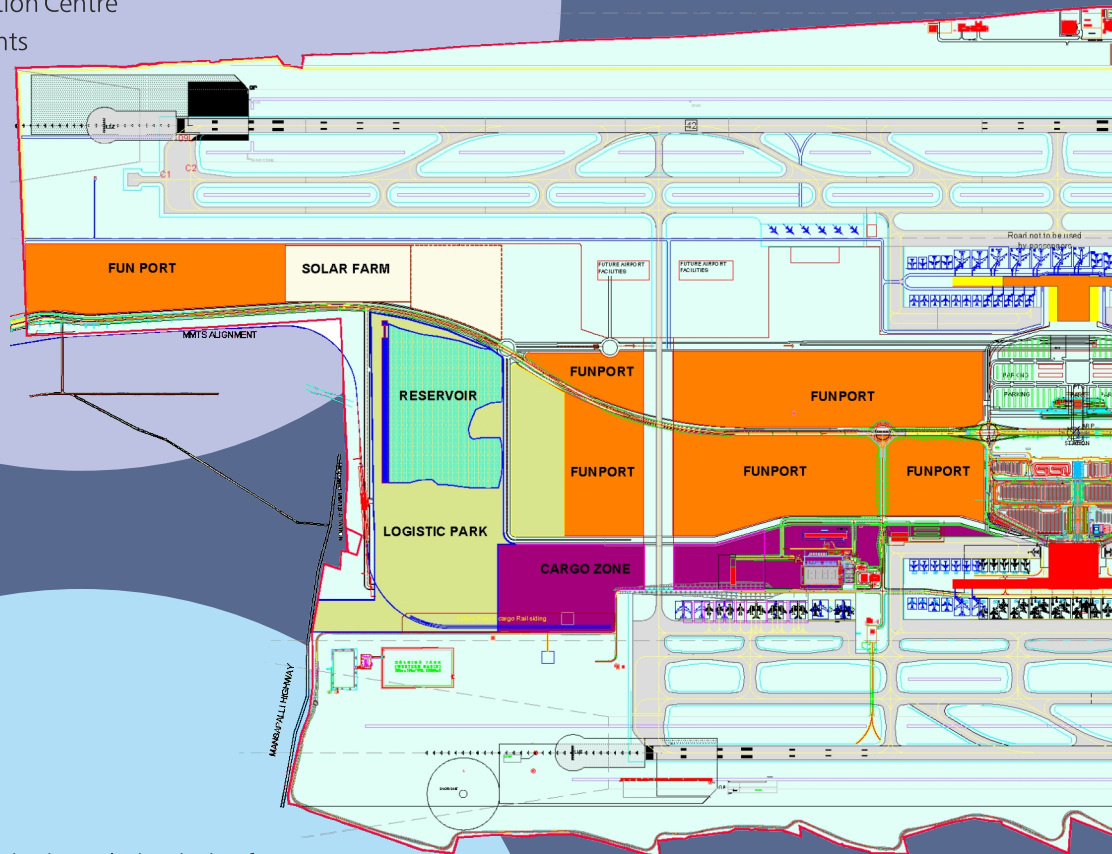

Business Port

The Business district will provide state of the art infrastructure for creating a conducive environment for conducting business without the hassles of urban city constraints. Strategically located in the heart of the Airport city, it provides a 24/7 environment for the business community.

Proposed Projects:

- Exhibition & Convention Centre
- Campus Developments
- IT Parks
- Standalone Offices
- Retail

Eduport

Educational port will be the knowledge hub of Airport city with leading Global and Indian institutes converging here and creating flexible learning pathways for students of all ages and background. It will provide the ecosystem for academic excellence, practical application of knowledge and allround development and aims to become a centre of learning, training, research and innovation.

Proposed Projects:

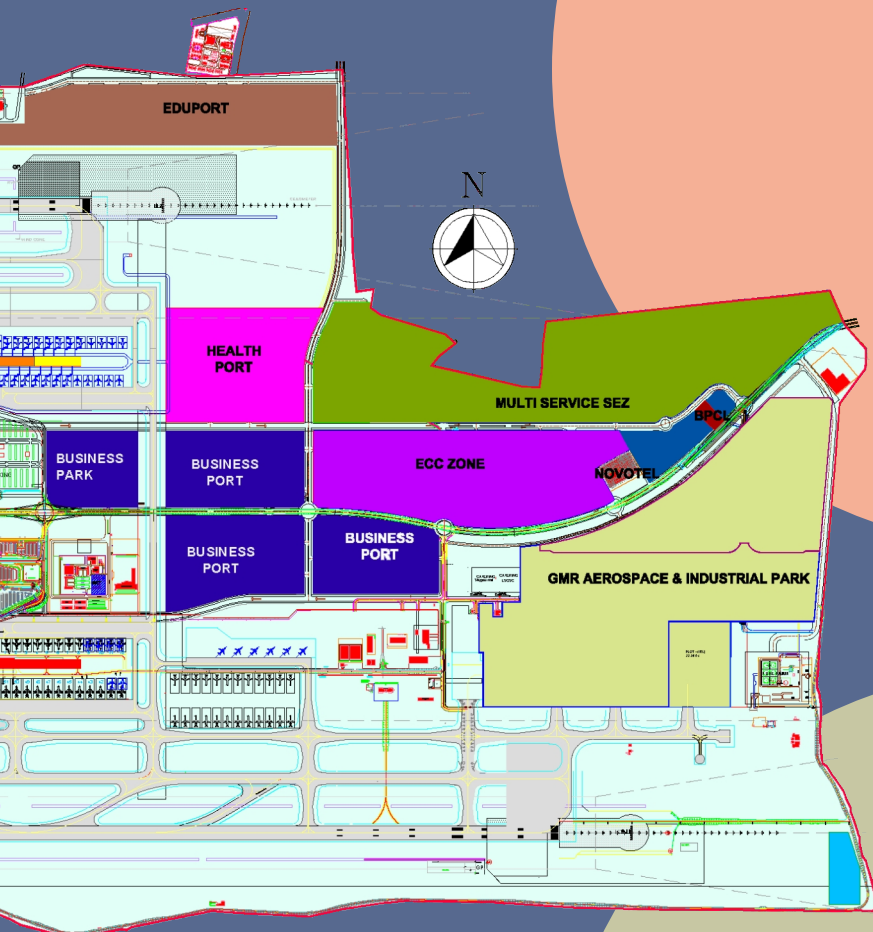

- Business School
- International School
- Aviation Academy
- Aerospace Engineering
- Hospitality Management

Fun Port

A cluster of various leisure and entertainment options will be provided for the visitors from the city and across the region. The leisure and entertainment port is a recreational and open space district focused on hospitality and leisure activities with resort accommodations for day and weekend visitors. It will be created as a preferred holiday destination for people in India with its amazing array of experiences. It will be ultimate hangout for friends and family to rejuvenate and create wonderful memories.

Proposed Attractions:

- Theme/Amusement Park
- Water Park
- Golf Course
- Destination Mall

Health Port

A global health complex that would be a destination for excellence in medicine, research and medical education and would play host to some of the best hospitals, centres of excellence, research facilities and alternative medicine operated by the leading healthcare providers in India and abroad. It will focus on specialty medical services targeted towards national and international customers.

Proposed Facilities & Services:

- Global tertiary Referral hospitals
- Medical School
- Nursing School
- Centre of Excellence
- Clinical Research
- Diagnostics Centre
- Alternative Medicine

EXISTING DEVELOPMENTS

HYDERABAD
AIRPORT
