

Half Yearly Compliance Report

2026

01 Jun(01 Oct - 31 Mar)

Acknowledgement

Proposal Name	Proposed expansion of Rajiv Gandhi international Airport from 25 MPPA to 50 MPPA, Shamshabad village, Hyderabad, Telangana, by M/s Hyderabad International Airport Limited - Environmental Clearance.		
Name of Entity / Corporate Office	GMR Hyderabad International Airport Limited		
Village(s)	N/A		
District	RANGA REDDY		
Proposal No.	IA/TG/MIS/78250/2018	Category	INFRA-2
Plot / Survey / Khasra No.	N/A	Sub-District	N/A
State	TELANGANA	Entity's PAN	*****3448M
MoEF File No.	10-71/2018-IA-III	Entity name as per PAN	GMR HYDERABAD INTERNATIONAL AIRPORT LIMITED

Compliance Reporting Details

Reporting Year	2026
Remarks (if any)	Six monthly EC Compliance report for the period from October 2025 to March 2026
Reporting Period	01 Jun(01 Oct - 31 Mar)

Details of Production and Project Area

Name of Entity / Corporate Office	GMR Hyderabad International Airport Limited	
	Project Area as per EC Granted	Actual Project Area in Possession
Private	0	0
Revenue Land	2223.75	1416.40
Forest	0	0
Others	N/A	N/A
Total	2223.75	1416.4

Others Area

Sr. no	Other Name	Area Granted	Area Actual
--------	------------	--------------	-------------

Production Capacity

Sr. no	Product Name	units	Valid Upto	Capacity	Production last year	Capacity as per CTO
1	Rajiv Gandhi International Airport	Others:Million Passengers per Annum (MPPA)	31/03/2029	25-50 MPPA	Passengers: 30.48 million; Cargo: 188.37 ('000 MT)	40 MPPA

Conditions

Specific Conditions

Sr.No.	Condition Type	Condition Details
1	Statutory compliance	Consent to Establish/Operate for the project shall be obtained from the State Pollution Control Board as required under the Air (Prevention and Control of Pollution) Act, 1981 and the Water (Prevention and Control of Pollution) Act, 1974.
PPs Submission: Complied Consent for Establishment (CFE) was obtained for RGIA Expansion for development of infrastructure facilities up to 40 MPPA from TGPCB vide letter dt.17.11.2022 and the validity extension was obtained from TGPCB vide order no. 246/TSPCB/CFE/RO-RR-I/HO/2025 dated 12.08.2025, which is attached here as Annexure 3. Further CFO of 40 MPPA was obtained from TGPCB vide consent order no. 20245073850 dated 29.03.2024. The copy of consent order is attached here as Annexure 4.		Date: 26/05/2026
2	Statutory compliance	Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities shall be complied with.
PPs Submission: Complied Noted and the airport is being complied with GSR 94(E) notification for implementation of dust mitigation measures for Construction and Demolition waste. The compliance report attached herewith as Annexure-5.		Date: 26/05/2026
3	Statutory compliance	Water requirement after expansion shall not exceed 14,332 KLD. Water requirements for the airport shall be met by HMWSSB with prior permission before commissioning of the project. No ground water shall be extracted without prior permission from CGWA
PPs Submission: Complied By implementation of water conservation principle 4R (Reduce, Reuse, Recycle and Replenish) GHIAL has reduced its water consumption significantly. Accordingly, GHIAL obtained EC amendment for the water consumption reduction from 14332 KLD to 9748 KLD for 50 MPPA capacity vide EC Identification No. EC23A2902TG5329751A dated 06.10.2023 (Annexure 6). GHIAL has obtained permission for the Ground water abstraction from the Telangana State Ground Water Department vide letter no. (Annexure 7).		Date: 26/05/2026
4	WASTE MANAGEMENT	Aircraft maintenance, sensitivity of the location where activities are undertaken, and control of runoff of potential contaminants, chemicals etc., shall be properly implemented and reported
PPs Submission: Complied The aircraft maintenance activity is being performed in the closed workshop i.e., Maintenance, Repair, and Overhauling (MRO) facility of the airport. The washing and floor cleanings of the MRO facility are routed to an in-house ETP within the workshop.		Date: 26/05/2026

5	WATER QUALITY MONITORING AND PRESERVATION	The wastewater generated shall be treated in the Sewage Treatment Plant (STP) of capacity 1850 KLD (2 x 925 KLD) (existing), 3000 KLD (under implementation) and 2200 KLD (proposed). Overall STP capacity after the expansion shall be 7050 KLD. Treated water shall be reused for flushing, cooling water make-up and green belt development. As proposed the Airport will operate on zero liquid discharge principle
PPs Submission: Complied GHIAL is operating the Airport on zero liquid discharge principle. Wastewater generated in the Airport is treating in STP of capacity 1850 KLD (2 x 925 KLD) and 2700 KLD (2 x 1350 KLD) and reused for cooling tower makeup, Flushing, and Landscaping. The Photographs of the STP are given below of as Photo 1.		Date: 26/05/2026
6	AIR QUALITY MONITORING AND PRESERVATION	During construction and operational phase AAQ monitoring should include PM 10, PM2.5, SO2, NOx, NH3, CO, CH4 and Benzene.
PPs Submission: Complied AAQ monitoring was carried out during the construction phase. Further the monitoring is being carried out on regular basis for operation phase. The latest monitoring report (March 2026) is attached as Annexure 8.		Date: 26/05/2026
7	Statutory compliance	Traffic Management Plan as submitted shall be implemented in letter and spirit. Apart, a detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time. Traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D] competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.
PPs Submission: Complied Traffic management and decongestion plan has been carried out by the specialized agency i.e., IBI Consultancy India Private Limited earlier in December 2018. Recently in 2025, Traffic Master Plan study was done by Unitrans Mobility Solutions, which is attached herewith as Annexure 9.		Date: 26/05/2026
8	Risk Mitigation and Disaster Management	An onsite disaster management plan shall be drawn up to account for risks and accidents. This onsite plan shall be dovetailed with the onsite management plan for the district.
PPs Submission: Complied The Airport has an onsite Aerodrome Emergency Plan (AEP), which covers fire accidents, natural calamities etc. The plan has been developed to cascade and integrate with the district onsite management plan. The AEP is enclosed as Annexure 10.		Date: 26/05/2026
9	GREENBELT	No tree shall be cut/transplanted unless exigencies demand. Where absolutely necessary, tree cutting/ transplantation shall be with prior permission from the concerned Authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted). In case of any tree felling/non-survival of transplanted tree, compensatory plantation in the ratio of 1:10 We ensure the permission of the forest department for trees cut/ transplantation within the Airport premises. (i.e., planting of 10

		trees for every 1 tree) shall be done and maintained. The plantation species should be carefully chosen to avoid bird nesting and to improve pollution control and noise control measures. Water intensive and/or invasive species should not be used for landscaping. Adequate area shall be provided for green belt development and landscaping.
PPs Submission: Complied Tree felling permissions were obtained duly from Divisional Forest Office, Shamshabad, Telangana State Forest Department prior to clearing the tress for site development works. The photograph of the existing green belt is given in Photo 3. The details of existing greenbelt area at RGIA are enclosed as Annexure 11.		Date: 26/05/2026
10	Statutory compliance	A water security plan to the satisfaction of the CGWA shall be drawn up to include augmenting water supply and sanitation facilities and recharge of ground water in at least two villages and schools, as part of the C.S.R. activities.
PPs Submission: Complied As per latest notification published by CGWA, GOI vide File No. 25-231CGWA/NOCAP/2018, Dated 01.02.2019, mentioned the Modification of conditions of NOCs of CGWA, stated as In view of the difficulties encountered in the implementation of Water Security Plan and as this activity is being covered under various schemes of Govt. of India/State Governments, the mandatory condition for formulation and implementation of Water Security plan is waived off. In line with the above notification, it was understood that Water Security Plan is not required to be implemented. However, GHIAL has established several water management projects and also provided the sanitation facility for the surrounding villages to improve the drinking water quality and augmentation of ground water as a part of CSR activities. The CSR report for October 2025-March 2026 is attached herewith as Annexure 12.		Date: 26/05/2026
11	MISCELLANEOUS	The company shall draw up and implement a corporate social Responsibility plan as per the Company's Act of 2013.
PPs Submission: Complied GHIAL is complying with the applicable provisions of Section 135 of the Companies Act, 2013 and the Rules made thereunder, relating to Corporate Social Responsibility (CSR), including the constitution of CSR Committee, framing of CSR Policy, and formulation and implementation of CSR Annual Action Plan for every financial year. For the financial year 2025-26, the Company has proposed a CSR Annual Action Plan and the Implementation of same in the FY 25-26 is attached herewith as Annexure 12. S. No. Name of the Thrust area Actual Spent in crores for FY 25-26 1 Education 1.05 2 Health 0.55 3 Skill Training Centre 2.16 4 Women Empowerment 0.54 5 Community Development 0.8 Total amount 5.10		Date: 26/05/2026
12	Statutory compliance	Clearance from Directorate General of Civil Aviation (DGCA) and Airports Authority of India (AAI) for safety and project facilities shall be obtained.
PPs Submission: Complied GMR Hyderabad International Airport Limited (GHIAL) has obtained the following clearances from DGCA and AAI before commissioning the following facilities for the reporting period from Oct 25 to Mar 26: 1. Obtained concept/design and execution level approval from DGCA vide letter Reference no.: 2025/ASD/ChangeManagement/0000003844, dated 11.12.2025 (Annexure 1) for installation of S-VDGS and de-commissioning of old VDGS at stands No. 44, 45, 46, 47 and 48 in phase wise manner at Rajiv Gandhi International Airport (RGIA), Shamshabad. 2. Obtained Commissioning level approval from DGCA vide letter Reference no.: 2024/ASD/Change Management/0000003233, dt.06.03.2026 (Annexure 2) for upgradation of Ground Infrastructure from Precision Approach CAT II to CAT III operation for Runway) 9R at RGI Airport, Shamshabad.		Date: 26/05/2026
13	Corporate Environmental Responsibility	As per the Ministry's Office Memorandum F.No. 22-65/2017-IA.III dated 1st May, 2018, and proposed by the project proponent,

		an amount of FRS. 21.25 Crore @0.25% of project Cost) shall be earmarked under Corporate Environment Responsibility (CER) for the activities such as Education (Gifted Children Scheme providing English medium education support from 1st std till they get a job to the meritorious children from under privileged from villages around Airport , Support to 11 Govt Schools around Airport -Providing teachers wherever there is shortage, infra support, note books etc., Education support to Airport Cab Drivers Children), Health & Sanitation (Medical Camps in villages around Airport, Mobile Medical Unit (MMU) for senior citizens with free treatment & medicines in 23 villages around Airport, New MMU Vehicle, Nutrition Centres for pregnant & lactating women in 3 villages), Empowerment & Livelihoods (Hyderabad Vocational Training Centre to train about 1000 youth every year with free boarding & lodging facilities and placement support, Nagaram Vocational Training centre, training about 300 youth every year, Raikal Vocational Training Centre training about 300 youth every year, Support to Swarna Bharath Trust, Muchintal for Vocational Trainings, Boys Hostel Construction at Vocational Training Centre, Hyderabad, Community Level Trainings, Admin Expenses and Community Development (Community Street lights, Community Infra support, Support to Orphanages). The activities proposed under CER shall be restricted to the affected area around the project, The entire activities proposed under the CER shall be treated as project and shall be monitored. The monitoring report shall be submitted to the regional office as a part of half yearly compliance report, and to the District Collector. It should be posted on the website of the project proponent.
--	--	---

PPs Submission: Complied GMR Hyderabad International Airport Ltd. (GHIAL) has been implementing community development initiatives in the surrounding villages of Rajiv Gandhi International Airport for the past 16 years. The objective is to improve the quality of life of the communities through need-based interventions in the areas of Education; Health, Hygiene, Sanitation; and Empowerment and Livelihoods.		Date: 26/05/2026
--	--	-----------------------------

14	Noise Monitoring & Prevention	During the airport operation period, noise should be controlled to ensure that it does not exceed the prescribed standards. During nighttime the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations. A monitoring station for ambient air and noise levels shall be provided in the village nearest to the airport.
----	-------------------------------	--

PPs Submission: Complied GHIAL is operating two online continuous Air and Noise monitoring stations, one at the boundary of the Airport and another at Mamidipalli village at GMR township to monitor ambient air and noise levels. The noise levels are observed to be within the permissible limits. In addition to the above, mobile environmental parameters monitoring station has been procured by GHIAL and is operational now.		Date: 26/05/2026
---	--	-----------------------------

General Conditions

Sr.No.	Condition Type	Condition Details
1	Statutory compliance	A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.

PPs Submission: Complied GHIAL has power agreement with Southern Power Distribution Company of Telangana Limited		Date:
---	--	--------------

(TGSPDCL). GHIAL is completely using the electricity sourced from Green Energy since June 2023.		26/05/2026
2	Statutory compliance	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable by project proponents from the respective competent authorities.
PPs Submission: Complied All the necessary permissions were taken from competent authorities for storage facilities of diesel and aviation fuel. The Aviation fuel storage permission copy is attached here as Annexure 13A, and the diesel storage permission copy is attached here as Annexure 13B.		Date: 26/05/2026
3	AIR QUALITY MONITORING AND PRESERVATION	During construction and operational phase AAQ monitoring should include PM10, PM2.5, SO2, NOx, NH3, CO, CH4 and Benzene.
PPs Submission: Complied AAQ monitoring was carried out during the construction phase. During the operation phase of the airport expansion project also monitoring is being carried out on regular basis. The Latest monitoring report (March 2026) is attached as Annexure 8.		Date: 26/05/2026
4	AIR QUALITY MONITORING AND PRESERVATION	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g., PM10 and PM2.5 in reference to PM emission, and SO2 and NOX in reference to SO2 and NOX emissions) within and outside the airport area at least at four locations (one within and three outside the plant area at an angle of 120 each), covering upwind and downwind directions
PPs Submission: Complied Ambient air quality monitoring is being carried out within the airport and outside the Airport (1 plus 3 locations: total 4) at an angle of 120 degrees each covering upwind/downwind directions by engaging a MoEFCC authorized laboratory. The latest monitoring report is attached herewith as Annexure 8.		Date: 26/05/2026
5	AIR QUALITY MONITORING AND PRESERVATION	Excavated materials shall be handled and transported in a manner that they do not cause any problems of air pollution.
PPs Submission: Complied Water is sprinkled at excavated working areas to control the fugitive dust and is being ensured that the excavated materials are transported in a manner that they do not cause any problems of air pollution. Dust Suppression measures are being carried out.		Date: 26/05/2026
6	AIR QUALITY MONITORING AND PRESERVATION	The soil/construction materials carried by the vehicle should be covered by impervious sheeting to ensure that the dusty materials do not leak from the vehicle.
PPs Submission: Complied The project proponent ensures vehicles carrying soil/ Construction materials covered by impervious sheet to prevent the leak of dusty material from vehicles.		Date: 26/05/2026
7	WATER QUALITY MONITORING AND PRESERVATION	Aircraft maintenance, sensitivity of the location where activities are undertaken, and control of runoff of potential contaminants, chemicals etc. shall be properly implemented and reported.
PPs Submission: Complied The aircraft maintenance activity is performed in the closed workshop i.e., Maintenance, Repair, and		Date:

Overhauling (MRO) facility of the airport. The washing and floor cleanings of the MRO facility are routed to an in-house ETP within the workshop.		26/05/2026
8	WATER QUALITY MONITORING AND PRESERVATION	Run off from chemicals and other contaminants from aircraft maintenance and other areas within the airport shall be suitably contained and treated before disposal. A spillage and contaminant containment plan shall be drawn up and implemented to the satisfaction of the State Pollution Control Board.
PPs Submission: Complied All the paint waste, waste oils, solution waste, empty containers and ETP Sludge are disposing properly as per state/ central PCB Norms periodically. Hazardous waste is disposed through authorized TGPCB approved waste disposal agency only. Fuel spillage emergency preparedness plan was framed and will be complied. The copy of it is attached herewith as Annexure 14.		Date: 26/05/2026
9	WATER QUALITY MONITORING AND PRESERVATION	Proper drainage systems, emergency containment in the event of a major spill during monsoon season etc. shall be provided
PPs Submission: Complied Drainage study was carried out, and a drainage system is under implementation for collecting the runoff during monsoon and works will be carried out every year before the onset of Monsoon. Emergency containment for the spill control is being implemented.		Date: 26/05/2026
10	WATER QUALITY MONITORING AND PRESERVATION	The runoff from paved structures like Runways, Taxiways, can be routed through drains to oil separation tanks and sedimentation basins before being discharged into rainwater harvesting structures.
PPs Submission: Complied The runoff from runways and taxiways is collected and routed through storm water drains to oil water separation tanks before being discharged into rainwater harvesting structures. The plan for Rainwater harvesting is attached herewith as Annexure 15.		Date: 26/05/2026
11	WATER QUALITY MONITORING AND PRESERVATION	Storm water drains are to be built for discharging storm water from the airfield to avoid flooding/water logging in project area. Domestic and industrial wastewater shall not be allowed to be discharged into storm water drains.
PPs Submission: Complied The runoff from Air-field area is discharged through storm water drains to avoid flooding or water logging and the water will be treated before being discharged into rainwater harvesting structures. No wastewater is discharged into storm water drains.		Date: 26/05/2026
12	WATER QUALITY MONITORING AND PRESERVATION	Rainwater harvesting for roof run-off and surface run-off, as plan submitted should be implemented. Rainwater harvesting structures shall conform to CGWA designs. Before recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease.
PPs Submission: Complied The rainwater from rooftop is collected in drains and treated before discharging into rainwater harvesting structures. The photographs of rainwater harvesting structures are given as Photo 5.		Date: 26/05/2026
13	WATER QUALITY MONITORING AND PRESERVATION	Total freshwater use shall not exceed the proposed requirement as provided in the project details. Prior permission from competent authority shall be obtained for use of fresh water.
PPs Submission: Complied Fresh water consumption is limited to the permitted quantity. GHIAL has obtained permission from		Date:

HMWSSB for usage of fresh water dated 01.03.2023, the order copy is attached as Annexure 16.		26/05/2026
14	WATER QUALITY MONITORING AND PRESERVATION	A certificate from the competent authority for discharging treated effluent/ untreated effluents into the public sewer/ disposal/drainage systems along with the final disposal point should be obtained.
PPs Submission: Complied GHIAL is being implemented zero liquid discharge principle by reusing the wastewater generated in RGI Airport STP for flushing and landscaping. No wastewater is discharged into public sewer/ disposal/drainage systems from the airport. Quality of Wastewater from the STP outlet is being analyzed and reported by MoEFCC authorized laboratory. The STP treated water quality report in EQM report is attached herewith as Annexure 8.		Date: 26/05/2026
15	WATER QUALITY MONITORING AND PRESERVATION	A detailed drainage plan for rainwater shall be drawn up and implemented
PPs Submission: Complied The Airport is having a rainwater drainage system for its paved areas and building rooftops. The runoff is collected in the rainwater storage tanks and allowed for recharge within the airport premises. Further, the drainage network is being extended in line with the airport expansion work plan.		Date: 26/05/2026
16	WATER QUALITY MONITORING AND PRESERVATION	No ground water shall be extracted without prior permission from CGWA
PPs Submission: Complied GHIAL has obtained permission from Telangana State Ground Water Department for abstraction of ground water vide letter no. The order copy attached herewith as Annexure 7.		Date: 26/05/2026
17	WATER QUALITY MONITORING AND PRESERVATION	A water security plan to the satisfaction of the CGWA shall be drawn up to include augmenting water supply and sanitation facilities and recharge of ground water in at least two villages and schools, as part of the C.S.R. activities.
PPs Submission: Complied As per latest notification published by CGWA, GOI vide File No. 25-231CGWA/NOCAP/2018, Dated 01.02.2019, mentioned the Modification of conditions of NOCs of CGWA, stated as In view of the difficulties encountered in the implementation of Water Security Plan and as this activity is being covered under various schemes of Govt. of India/State Governments, the mandatory condition for formulation and implementation of Water Security plan is waived off. In line with the above notification, it was understood that Water Security Plan is not required to be implemented. However, GHIAL has established several water management projects and also provided the sanitation facility for the surrounding villages to improve the drinking water quality and augmentation of ground water as a part of CSR activities. The CSR report for October 2025-March 2026 is attached herewith as Annexure 12.		Date: 26/05/2026
18	Noise Monitoring & Prevention	Noise from vehicles and power machinery and equipment on-site should not exceed the prescribed limit. Equipment should be regularly serviced. Attention should also be given to muffler maintenance and enclosure of noisy equipment's.
PPs Submission: Complied Noise generated from vehicles, power machinery and Equipment onsite are kept under the prescribed limits by undertaking regular servicing, maintenance of mufflers and the equipment are being provided with acoustic enclosures.		Date: 26/05/2026
19	Noise Monitoring & Prevention	Acoustic enclosures for DG sets, noise barriers for ground-run bays,

		ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources	
PPs Submission: Complied The DG sets are equipped with acoustic enclosures. All necessary noise mitigation measures are being practiced by the airlines and ground support departments. Further, earplugs are provided for the operating personnel.			Date: 26/05/2026
20	Noise Monitoring & Prevention	During the airport operation period, noise should be controlled to ensure that it does not exceed the prescribed standards. During nighttime the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations. A monitoring station for ambient air and noise levels shall be provided in the village nearest to the airport.	
PPs Submission: Complied GHIAL is operating two online continuous Air and Noise monitoring stations, one at the boundary of the Airport and another at Mamidipalli village at GMR township to monitor ambient air and noise levels. The noise levels are observed to be within the permissible limits. In addition to the above, mobile environmental parameters monitoring station has been procured by GHIAL and is operational now.			Date: 26/05/2026
21	Noise Monitoring & Prevention	Where construction activity is likely to cause noise nuisance to nearby residents, restrict operation hours between 7 am to 6 pm.	
PPs Submission: Complied Noted.			Date: 26/05/2026
22	ENERGY PRESERVATION MEASURES	Energy conservation measures like installation of LED for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning.	
PPs Submission: Complied LED lighting is under implementation for both existing and expansion infrastructure of the airport.			Date: 26/05/2026
23	WASTE MANAGEMENT	Notification GSR 94(E) dated 25.012018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities shall be complied with.	
PPs Submission: Complied Noted and the airport is being complied with GSR 94(E) notification regarding dust mitigation measures for Construction and Demolition waste. The compliance report is attached herewith at Annexure 5.			Date: 26/05/2026
24	WASTE MANAGEMENT	Soil stockpile shall be managed in such a manner that dust emission and sediment runoff are minimized. Ensure that soil stockpiles are designed with no slope greater than 2:1 (horizontal/vertical).	
PPs Submission: Complied Excavated soil is separately stored at designated areas and ensured the heap slopes maintained not greater than 2:1 (horizontal/vertical).			Date: 26/05/2026
25	WASTE MANAGEMENT	The project activity shall conform to the Fly Ash notification issued under the E.P. Act of 1986.	
PPs Submission: Complied Noted and will be complied.			Date: 26/05/2026

26	WASTE MANAGEMENT	Solid inert waste found on construction sites consists of building rubble, demolition material, concrete; bricks, timber, plastic, glass, metals, bitumen etc. shall be reused/recycled or disposed off as per Solid Waste Management Rules, 2016 and Construction and Demolition Waste Rules, 2016.
PPs Submission: Complied All the solid waste, Construction and Demolition waste generated at construction site is managed as per the Solid Waste Management Rules, 2016 and Construction and Demolition Waste Rules, 2016.		Date: 26/05/2026
27	WASTE MANAGEMENT	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.
PPs Submission: Complied All the Construction and Demolition waste is managed as per Construction and Demolition Waste Rules, 2016.		Date: 26/05/2026
28	WASTE MANAGEMENT	The project proponents shall implement a management plan duly approved by the State Pollution Control Board and obtain its permissions for the safe handling and disposal of: a. Trash collected in flight and disposed at the airport including segregation, collection and disposal. b. Toilet wastes and sewage collected from aircrafts and disposal at the Airport. c. Wastes arising out of maintenance and workshops d. Wastes arising out of eateries and shops situated inside the airport complex. e. Hazardous and other wastes
PPs Submission: Complied Noted and being complied with. GHIAL has obtained CFE and CFO from the TGPCB. GHIAL is implementing the waste management practices for both existing and expansion airport operations. a. Trash from flights are collected, segregated and disposed of at waste management facility within the airport premises. b. Toilet waste and sewage from the aircraft is being collected and being treated at the STP, which is present inside the airport. c. Waste arising out of maintenance work is being treated through the ETP which is present at MRO facility inside the airport. d. Waste arising out of eateries and shops situated inside the airport complex are being collected, segregated and disposed as applicable. e. The Hazardous waste and other waste which is generated from the operations are collected, stored and sent to CPCB/SPCB authorized recyclers.		Date: 26/05/2026
29	WASTE MANAGEMENT	The solid wastes shall be segregated as per the norms of the Solid Waste Management Rules, 2016. Recycling of wastes such as paper, glass (produced from terminals and aircraft caterers), metal (at aircraft maintenance site), plastics (from aircrafts, terminals and offices), wood, waste oil and solvents (from maintenance and engineering operations), kitchen wastes and vegetable oils (from caterers) shall be carried out. Solid wastes shall be disposed in accordance to the Solid Waste Management Rules, 2016 as amended
PPs Submission: Complied All the solid waste, generated from construction sites, PTB, Flight Kitchens, Canteens are properly segregated and managed as per the Solid Waste Management Rules, 2016. Recycling of wastes such as paper, glass (produced from terminals and aircraft caterers), metal (at aircraft maintenance site), plastics (from aircrafts, terminals and offices), wood, waste oil and solvents (from maintenance and engineering operations), kitchen wastes and vegetable oils (from caterers) is being carried out and the Solid wastes are being disposed in accordance to the Solid Waste Management Rules, 2016 as amended.		Date: 26/05/2026
30	WASTE MANAGEMENT	A certificate from the competent authority handling municipal solid wastes should be obtained, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project.

PPs Submission: Complied Municipal Solid Waste generated from GHIAL is segregated and biodegradable waste is treated in Compost yard and the product is used as manure for the belt/landscaping. Non-Biodegradable waste is being disposed of recyclers.		Date: 26/05/2026
31	WASTE MANAGEMENT	Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.
PPs Submission: Complied All the lights in Passenger Terminal Building has been converted to LED. However, any CFLs and TFLs collected from any other areas will be disposed through authorized recyclers.		Date: 26/05/2026
32	GREENBELT	Green belt shall be developed in area as provided in project details, with native tree species in accordance with Forest Department. The greenbelt shall inter alia cover the entire periphery of the Airport.
PPs Submission: Complied GHIAL has developed green belt in an area of 688.2 acres, with native tree species in accordance with Forest Department. The greenbelt inter alia covers the entire periphery of the Airport.		Date: 26/05/2026
33	GREENBELT	Topsoil shall be separately stored and used in the development of green belt.
PPs Submission: Complied Excavated topsoil is separately stored at designated areas and ensured the heap slopes maintained not greater than 2:1 (horizontal/vertical).		Date: 26/05/2026
34	Human Health Environment	Construction site should be adequately barricaded before the construction begins.
PPs Submission: Complied All the construction sites are being barricaded properly without any openings.		Date: 26/05/2026
35	Human Health Environment	Traffic congestion near the entry and exit points from the roads adjoining the airport shall be avoided. Parking should be fully internalized, and no public space should be utilized.
PPs Submission: Complied Traffic congestion near the entry and exit points from the roads adjoining the Airport is avoided by construction of 4 and 6 lane roads (from Hyderabad to Bangalore highway to the Srisaïlam highway). A fully internalized dedicated parking area has been developed, and no public space is utilized.		Date: 26/05/2026
